

It is autumn. The leaves are falling from the trees. Danny and Sarah go for a walk with their friends Kevin and Sally.

1. How many children go for a walk?

2. What season is it?

3. How many seasons are there altogether?

"Look", says Danny. "Look at all the conkers on the ground". The children start to gather the conkers. Danny gathers 3 conkers, Sarah gathers 5 conkers, Kevin gathers 2 conkers and Sally gathers 4 conkers.

4. Who gathers the most conkers?

5. Who gathers the least conkers?

6. How many conkers do the boys gather?

7. How many conkers do the girls gather?

8. How many conkers do the children gather altogether?

When they go back to Danny and Sarah's house, the children play games of conkers. When the games are finished, the children only have 4 conkers left. The other conkers are all broken. They had great fun.

9. How many conkers got broken playing the games?

10. What season will it be next?
